

## **WINS SPECIAL EDUCATIONAL NEEDS POLICY**

### **Introduction**

WINS is a non-selective and inclusive school that aims to offer high-level international programs to all students regardless of any learning difficulties or disabilities. One of its main objectives is to ensure that the school is a positive and enriching experience for all those who attend it.

We believe that the inquiry-based and experiential approach that characterizes teaching and learning at WINS allows for sufficient differentiation within the class to enhance the learning experience for all students involved, both high-achieving students and those affected by learning difficulties or disabilities.

### **Defining Special Educational Needs**

Students are considered to have Special Educational Needs (SEN) if they have a learning difficulty or disability that is either certified by a specialist or if they are observed to experience considerable difficulties in learning that hinders their progress significantly compared to children of the same age.

Students who are experiencing emotional and/or behavioral difficulties might be regarded as falling into this category at the discretion of the School Manager and Academic Coordinator and the school's SEN specialist consultant, in agreement with the family.

Any of the above situations will be discussed with the family beforehand.

Students whose level of English fluency is lower than that of their peers will not be considered as having SEN but will be supported and guided accordingly.

### **Aims of the Policy**

The SEN policy aims at setting clear standards and providing guidelines for all stakeholders to ensure that:

- SEN students are identified as soon as possible;
- The school meets the special needs of SEN students;
- Expectations are clear to all stakeholders;

- The school collaborates whenever possible and appropriate with parents and specialists who are helping the student;
- The students can be fully integrated into the classroom, and the teachers are informed and can provide suitable activities to meet the students' specific needs;
- Teachers are supported to ensure they are able to meet the specific needs of SEN students.

## Identifying SEN

### **Students with a Known SEN**

Parents are expected to inform the school of any known learning difficulties or disabilities affecting their children upon enrollment. The school's Admissions Team will ask for the supporting medical documents and for the results of any tests the student has undertaken to get a full picture of the student's situation.

The School Manager and Academic Coordinator, the Program Coordinator, and the school SEN specialist consultant will be available to meet with the student's specialist(s) to discuss the best possible teaching and learning approaches and strategies.

Throughout the school year, internal meetings will be held with the relevant teachers of the student in order to devise teaching learning approaches and strategies that meet the student's needs.

Should the student's condition require special accommodations that affect syllabus content and learning objectives, these will be discussed on an individual basis with the family.

### **Students Suspected of Having a SEN**

Teachers, especially in the Early Years and Primary Years sections, constantly monitor the students' progress in relation to the development progress of their age and grade level.

Should a teacher notice a student is consistently struggling and their rate of progress seems inadequate despite the different learning experiences proposed, the teacher will inform the Program Coordinator and the School Manager and Academic Coordinator, and the child will be monitored. Parents will be informed that the student is experiencing difficulties and is being monitored.

If the student continues to experience difficulties during the monitoring period and may have a learning difficulty or disability, the School Manager and Academic

Coordinator will inform the family, and the school SEN specialist consultant will be called in to provide guidance to the family. After the family's consent, the relevant teachers will be notified.

Formal testing will be suggested to clearly identify the reasons for the lack of adequate progress. Formal testing should be considered as a suggestion to the families, as it requires additional payments and is up to the parents to decide what course of action to take.

## **Devising and Implementing Individualized Education Plans**

In the event of an acknowledged SEN, the school's academic team (the School Manager and Academic Coordinator, the Program Coordinator, and the student's teachers), after consulting with the school's SEN specialist consultant and with the family's specialist(s), will be available to suggest an appropriate Individualized Education Plan (IEP) that can meet the student's needs.

In the event such IEPs considerably divert from the standard IB curriculum requirements, the School Manager and Academic Coordinator and the Program Coordinator will discuss the consequences with the family beforehand.

Once a formal IEP has been agreed upon, the School Manager and Academic Coordinator will be responsible for informing the student's relevant teachers. The Program Coordinator will be in charge of supporting teachers in the implementation of the IEP.

The IEP will be revised and updated annually based on the student's progress and any difficulties or changes encountered.

The IEP will apply to students on the "Athletes program" as well.

## **SEN Students at MYP and DP Level**

All stated above applies to all sections in the school, and the same procedure is followed for both suspected and declared SENs at MYP and DP level.

In addition to what is stated above, to ensure fairness and consistency in the application of special measures, the School Manager and Academic Coordinator and the Program Coordinator will refer to the IB indications in terms of SEN and accommodations allowed during formal examinations.

## **High-Achieving, Gifted and Talented Students**

WINS aims at supporting high-achieving, gifted and talented students through differentiation and student-centered activities that allow each student to work at their own level and explore their interests at an appropriate level. Teachers are encouraged to set higher aims and objectives for high-achieving students to ensure they feel challenged in their learning and to prevent them from getting bored.

Peer guidance and buddy programs are also used to provide further learning opportunities for gifted and talented students.

## **Role of the School Psychologist/SEN Specialist Consultant**

For the time being, the internal referent for SEN students is the School Manager and Academic Coordinator, who is supported by external consultants (School Psychologist).

The School Psychologist is asked to intervene when a case is flagged by teachers or when a SEN student enrolls at WINS. According to Italian law, the School Psychologist is not entitled to carry out therapy within the school context; they have the sole role of guiding and supporting the school, the family, and the student and suggesting external support if it is considered necessary.

When the school population requires it, an internal School Psychologist will be hired.

## **Confidentiality**

WINS is committed to student privacy and ensuring that all information is treated with confidentiality and respect. SEN documents are not shared among the staff, and teachers and staff are required to respect the privacy of all students by not sharing the information with parties other than relevant teachers, specified family members, and the specialists who are following the student's cases.

## **Policy Review**

The School Manager and Academic Coordinator is in charge of the policy revision process that involves the Program Coordinator and the School Psychologist.

The School Manager and Academic Coordinator, the School Psychologist, the pedagogical leadership team, and the program coordinators will be drafting the policy on the basis of indications provided by IB documents. Teachers will be asked to provide feedback on the draft, and the policy will be updated accordingly if the input is consistent with IB guidelines and the school vision.

For the first couple of years, the policy will be revised on a yearly basis and either confirmed as is or modified accordingly. The School Manager and Academic Coordinator will be in charge of approving the new version and sharing it with the school community through the school website and on Managebac.

After that, the policy will be revised on a rotational basis at least every evaluation cycle.
